Time For Action!

We, the People, Talk Back!

to President Eisenhower to Our Congressmen to the Supreme Court!

Chicago

at the 3rd Annual
Constitution Day Convention
Saturday and Sunday
September 14 and 15, 1957

To Alert Millions!

"Make No Little Plans - - They Have No Magic to Stir Men's Blood!"

WE THE PEOPLE! Hold a Press Conference For the Nation!

The Taxpayers State Their Case:

How from 20% to 91% of our earnings are taxed away today in the highest peacetime taxes in our history with no relief in sight! How we must pay out additional income in hidden taxes on everything we buy! How we must pay out even more in Social Security which is then spent and will have to be repaid in the future by higher taxes on our children.

The Businessmen State Their Case:

How socialism has taken its toll in this country so that failures in business are higher today than they were in the recession of 1937. How everyone, except big business, is facing "a profitless prosperity" that will destroy our future jobs and economic security!

The Farmers State Their Case:

How, without even "signing up", farmers are being prosecuted, fined and jailed for growing more grain than they are allowed — even to feed their own livestock! How Communist methods are now used on our farmers by the Department of Agriculture.

The Doctors State Their Case:

How, without public consent, the federal "social planners" have brought socialized medicine in through the back door. How both doctors and patients are now regimented through the new "Medicare."

The Parents State Their Case:

How our children are now being indoctrinated in the public schools for socialism. How our young men are being drafted in peacetime to be sent into some 50 foreign lands to risk their life and liberty to protect foreign lives and property. Also how the health of our loved ones is jeopardized by government-controlled mental health programs and compulsory mass medica-

Mr. and Mrs. U.S. State Their Case:

How the value of our dollar has been shrunk 50% since 1939 through exorbitant federal expenditures and deficit spending. How every generation is burdened with a larger national debt that will tax away more and more of their earnings and take their private property until they are finally left subservient to the State.

Patriotic Leaders State Their Case:

How difficult it is to reach and alert the brainwashed masses of Americans today because of the left-wing blackout covering most of the nation's press. How current programs of the federal government are propagandized and how patriotic programs to block socialism and a world police state are censored from the press, radio and TV.

These injustices and many more will be revealed throughout these two exciting days when we, the people of America, talk back to the men who were elected or appointed to be our public servants but who have now, through their colossal spending and taxing power, become our masters. All the press of America, TV, radio and newsreels, are cordially invited to attend this giant press conference to learn the grim details from the people who have suffered the most: The Middle Class Americans! All politicians, educators, clergymen and the opinion molders of every community are urged to attend!

Who are WE, THE PEOPLE!

We are American citizens who believe in the principles of personal liberty—individual responsibility private property. To preserve these human rights, we support the principles of limited, constitutional government.

We are people from many walks of life, many faiths, and many origins, joined together in a nonpartisan, national federation for patriotic action. We now have affiliates in over 1,400 communities in all 48 states, Alaska, Puerto Rico and Hawaii. We are united to protect ourselves, our children and generations yet to come from the threats of socialism and world government.

We follow this CREDO: "I believe in Freedom Under God—in the supreme worth and inalienable rights of the individual—that the state should be his servant, not his master. I believe in voluntary methods and incentives, and in ownership of productive facilities by the people who invest. I swear allegiance to the Constitution of the United States,

and our traditional American Way-of-Life and pledge my thought, time and treasure to their preservation."

We PLEDGE ourselves: "To work and vote only for statesmen, regardless of party, who place the freedom and sovereignty of the American citizens above all else. I will not vote for anyone who fosters socialism or world government."

AS A VOTING BLOC OF MILLIONS, we, the people, can save America for our children and coming generations from the selfishness of organized

pressure groups, expedient politicians and power-hungry bureaucrats who would destroy us. Will you join us in this fight?
How Far Will You Go?
(a personal questionnaire) 1. Will you support this Constitution Day Convention to the extent of making personal contacts and phone calls to tell other patriots about it?
CHECK: YES NO
2. Will you make up a mailing list of true patriots and get out a local mailing if we send you these folders? If so, how many? (50 for \$1.00)
3. Whom would you nominate to represent your county on the convention's Action Committee (political strategy)?
